Self Study Report for an Institution (SSRI)

لملكة العربية السعودية لهيئة الوطنية للتقويم والاعتماد الأكاديمي

#### **Self Study Report for the Institution**

An institutional self-study is a thorough examination of the quality of an institution. The mission and objectives of the institution and the extent to which they are being achieved are thoroughly analyzed according to the standards for quality assurance and accreditation defined by the NCAAA.

A Self Study Report for the Institution (SSRI) should be considered as a research report on the quality of the institution. It should include sufficient profile information to inform a reader about the process of investigation and the evidence on which conclusions are based to have reasonable confidence that those conclusions are sound. Conclusions should be supported by evidence, with verification of analysis and advice from others able to offer informed and independent comments.

This SSRI should include all the necessary information for it to be read as a complete self contained report on the quality of the institution.

The SSRI template includes sections, headings, and tables to assist in preparing the report. Throughout the report evidence should be presented in tables or other forms of data presentation to support conclusions, with comparative data and reference made to other reports or surveys.

Institutional KPIs and KPI tables for assessment of quality are located in standard 3. A separate KPI table is used for each institutional KPI. Institutions are required to use 50% or more of the suggested NCAAA KPIs and are encouraged to develop their own reasonable number and of highest importance KPIs. Additional KPIs and KPI tables may be used as evidence to demonstrate quality performance throughout the SSRI (copy and paste a complete KPI table wherever it is appropriate).

The report should be provided as a single page numbered document, single sided, with a table of contents. A list of acronyms used in the report should be attached.

For further guidance on the completion of this template, please refer to the NCAAA guidebooks and Accreditation Management System (AMS).

### G. Evaluation in Relation to Quality Standards

The main branch/location campus must complete the entire SSRI together with the required information from all branch/location campuses.

Response reports should be provided under each of the quality sub-standards set out in the Standards for Quality Assurance and Accreditation of Higher Education Institutions.

- To ensure a full understanding of the SSRI an explanatory report should be included; giving background information or explanations of processes relevant to the standard concerned.
- The reports should summarize the processes followed in investigating performance in relation to each standard and sub-standard.
- A vital element of the SSRI is to provide specific data, show trends, support conclusions, and make appropriate comparisons with other institutions selected to provide benchmarks for evaluation of performance. This data can include key performance indicators, other statistical information, figures derived from survey results, student results or anything that provides clear evidence about the matter being evaluated. A simple assertion that something is good, or needs improvement, is not sufficient without evidence to back it up.

1. Mission and Objectives (Overall RatingStars)
The institution's mission statement must clearly and appropriately define its principal purposes and priorities and be influential in guiding planning and action within the institution.

Senior administrators must lead the activities of the institution effectively within a clearly defined governance structure. If there are separate sections for male and female students resources must be comparable in both sections, there must be effective communication between them, and full involvement in planning and decision making processes Planning and management must occur within a framework of sound policies and regulations that ensure financial and administrative accountability, and provide an appropriate balance between coordinated planning and local initiative.
<b>Provide an explanatory report</b> about aspects of governance and administration that are relevant to the matters referred to in this standard and are not already explained in the institutional profile.
